

Giclée & Scan Pricing

Scanning

The first step is to photograph your artwork. We prefer that a professional photographer photographs your artwork and supplies us with a 4" x 5" transparency for us to scan with our high quality drum scanners capable of achieving 16,000 ppi. 2 1/4" or smaller transparencies, depending on the output size, may not reproduce to your expectations. We can recommend a photographer for you. If you are already working with a photographer or company to have your artwork photographed or transparencies scanned we can give you specifications to pass on to them. We cannot over-emphasize the importance of quality photography and scanning.

Pricing below refers to output size and includes two color proofs on the media that will be used for your reproduction. Larger sizes available, inquire about pricing.

Size	Cost	Size	Cost
2" x 3"	\$20.00	10" x 12"	\$50.00
4" x 5"	\$25.00	11" x 14"	\$60.00
5" x 7"	\$30.00	12" x 18"	\$70.00
6" x 9"	\$35.00	14" x 20"	\$80.00
8" x 10"	\$40.00	16" x 24"	\$100.00

Giclée Fine Art Prints
